#2 What makes the nominee(s) special or unique? Why should the nominee(s) be considered for the award?

The business is a multigenerational place that has not forgotten about the customer first. Jay has been involved in various civic groups from Chamber of Commerce to Webster's 2020 organization. Add on top of that coaching younger kids' basketball, but most importantly how to have fun. Janice is involved in swimming and as well as an official and was one of those involved in bringing the state swim meet to Webster a couple years ago. They also worked with others to bring the State Amateur basketball tournament to town. If there is an event and you call on them, they are there to step up.

#3 What organizations is the nominee(s) involved in? (Community projects, volunteer work, financial contributions)

I have already mentioned a few of the projects that only touches the tip of the iceberg. They have been a donor to the hospital project years ago to giving to the next project to make this area a better place to live and work. If it is not financially it is through hard work and sweat. A few years back one family lost their husband and father, Jay was there with some workers to finish a project that needed to be done and not wanting in recognition. The two would love to be a behind the scenes couple that gives in one form or another without wanting to be recognized but to recognizes others involved.

They serve their customers like they are family and even at times sit down at the table and talk about the day or what is going on.
