

South Dakota's own Vision Plan

Based in Sioux Falls with more doctors in South Dakota than any other vision plan!
Endorsed Provider of the SDRA.

Started in 1990, Optilegra is the only vision plan that gives your employees access to all of the highest-quality local doctors. No other vision plan offers LASIK with our South Dakota ophthalmologists. Our helpful Sioux Falls-based customer service and user-friendly website make Optilegra a breeze to work with!

- Vision plans are one of the most popular employee benefits. Employees like getting new glasses or contacts each year.
- Vision plans save your employees money through a pre-tax deduction and reduced exam and eyewear charges. Having a vision plan reduces the cost of eye care dramatically, and spreads the payments out... avoiding the sudden \$300 to \$500 sting for new glasses or contacts.
