The freedom to play the music you want and the tools to make it easy

Whether you love putting together playlists, or you'd rather leave the work to someone else, we got your back.

From the latest to the greatest, you get access to more songs than you will ever need, and you can play them whenever, legally!

Sign up and let the guests feel the difference **in your business.**

Import Spotify Playlists

Pick and choose from your favorite playlists on Spotify and play them in your business within seconds.

Create Schedules

Play the right playlist at the right time during the whole week by using our drag and drop schedule feature.

AI Music

Create a playlist from tags or use your favorite artist as a starting point and we will do the rest for you.

Also included: Explicit Filter | iOS and Android apps | Central Control for Multi-locations
